Mirage Square Cut 3051™

PERIMETER FRAMED PIVOTING SHOWER SCREEN SYSTEM WITH FRAMELESS DOOR

Mirage Square Cut 3051™ features rounded convex profile with fully recessed glazing channel outer frame design

Exceptional Value

Indulge your imagination and create an absolute premium bathroom design at a surprisingly affordable price.

Adjustment

Provides up to 15mm jamb adjustment for out-of-square walls for ease of installation and further cost savings.

Handle Selection

An extensive range of handles are available in your choice of either gold, chrome and satin chrome plated finishes.

Components

Component and design features combine to provide convenience and colour co-ordination.

- Patented Pivot Mechanism
- Anti-bacterial clear (i.e. frost) and colour matched glazing vinyl
- Pivot Clamp System

Low Maintenance

Smooth contoured profiles minimise soap and residue accumulation, reducing the need for cleaning

Design Flexibility

Mirage Square Cut 3051™ Shower Screen Systems can be designed for installation into most bathrooms. Ask your distributor for advice on a design to suit your needs.

Water Resistance

Mirage Square Cut 3051™ can be specially made to include magnetic and/or non-magnetic seal closures, maximising water splash resistance so your bathroom remains drier and safer.

Frameless Patented Pivot Mechanism

Unique pivot design allows for a totally frameless door. Utilising a captive stainless steel pivot pin, the **Mirage Square Cut 3051™ Shower Screen System** features a 'positive close' low friction design mechanism, providing the benefit of whisper-quiet and trouble-free operation.

The 'lowering' effect of the design automatically reduces the gap between door and sill on door closure, which further assists with the minimisation of external splashing and improved water resistance.

Over 180° of door swing is possible, enabling both inward and outward opening if required, providing maximum use of bathroom area.

Glass Size

Designed specifically for use with 6mm toughened glass.

Safety

Mirage Square Cut 3051™ Shower Screen System incorporates a captive pivot pin mechanism so the door cannot be dislodged. The **Mirage Square Cut 3051™ Shower Screen System** are glazed to comply with the requirements of Australian Standards AS2208 and AS1288

Square Cut Corner Stake Design

Square Cut Corner Stakes are designed to match the perimeter frame profile, providing rigid colour co-ordinated joining points in the screen structure.

Magnetic Door Latch Mechanism

Mirage Square Cut 3051™ is also available with a specifically designed magnetic door location feature. The Magnetic mechanism has no moving parts resulting in trouble free whisper quiet operation.

Colour Selection

	Black
	Almond Cream
	White
	Bright Satin
	Bright Bronze
	Bright Gold
	Bright Natural
	Matt Natural
